

Your perfect partner
from the UK across the world

Product Catalogue 2024

A global brand, **Perfection Plus** products are available in over 50 countries across the world with continuous expansion of our distribution network.

All our products are manufactured to the highest quality and supported by an established Quality Management System ensuring full compliance to European and UK Medical Device Regulation.

Our goal is to ensure that **Perfection Plus** is your number one choice for quality, value driven products that you and your team can rely on time after time. We pride ourselves on offering personalised, bespoke customer service to maximise all opportunities for growth and expansion in your market.

Our range is continuously developing and expanding to ensure we can meet both your needs today and in the future.

You can count on **Perfection Plus** to be your Perfect Partner!

Perfection Plus Environmental Commitment

Perfection Plus is committed to using recycled materials in the manufacturing of our product packaging wherever possible. We are also committed to ensuring that our product packaging is fully recyclable providing it does not have a detrimental effect on product quality.

We are also focussing on introducing biodegradable and recyclable products into our range. Look out for the recycling symbol on our packaging as this shows that this packaging can be recycled.

Composites

RestorePLUS

A high-performance nano hybrid for superb results every restoration

- A universal composite offering excellent wear resistance and aesthetics. A top performing composite with excellent handling characteristics
- Flexural Strength 130MPa
- Compressive Strength 300MPa

Suitable for:

- Anterior and posterior cavities – Classes I, II, III, IV & V
- Direct laminate veneers
- Core build-ups
- Fractured laminate veneer and porcelain repairs
- Root caries and defects

RestorePLUS Flow

An advanced light curing, nano hybrid flowable composite offering superb aesthetics and usability

- Exceptional handling provides control and ease of use combined with high levels of strength for excellent wear resistance and high elasticity for durable, long lasting restorations.
- Unlike many flowable composites, RestorePLUS Flow is radiopaque.

Suitable for:

- Minimally invasive cavity restorations
- Class III and V anterior restorations involving cervical caries and wedge-shaped defects
- Class I and II posterior
- Deciduous restorations

RestorePLUS Bulk

Polymer based restorative designed for class I and II restorations

- Its outstanding handling characteristics ensure easy placement with excellent aesthetic results. Superior compression strength and low polymerisation shrinkage so less stress on the bond
- Non sticky consistency allows the posterior cavity to be bulk filled without overflowing
- Fast Curing up to 4mm increments
- Low water absorption and solubility ensures durability and colour retention
- High resistance to fracture and abrasion reduces cracks and breaks

RestorePLUS Core Build

Dual curing flowable composite with great handling properties and high flexural and compressive strength

- The highly radiopaque filler content ensures the radiopacity of the final core build and the concentration of nano particles provides exceptional resistance of the final restoration against edge fracture
- Especially useful where the light is difficult to reach as its dual curing properties ensure polymerisation
- Low sorption organic monomers and optimum sizes glass filler particles keep the water sorption of the restoration at lowest possible level

Product	Code
5ml Syringe & 5 Mixing Tips	010/1620
25ml Cartridge & 10 Mixing Tips & 10 Intra-oral Tips	010/1621

Glass Ionomers

P+ Fill

Anhydrous Fast Setting Glass Ionomer

- Offering high levels of mechanical strength, excellent adhesion and easy to handle
- Indicated for Class III & V cavities with high wear and erosion resistance for durable, superior restorations

10g Powder

Product	Code
Light Yellow	010/1531
Universal	010/1532
Light Grey	010/1533

Everest

High Wear Resistance Radiopaque Posterior Glass Ionomer

- A radiopaque glass ionomer restorative material for use in the posterior region aesthetics are an important factor
- Offering high compressive strength and excellent biocompatibility, combined with ease of use as no need to etch or bond
- The material matches enamel fluorescence and has superb translucency. It can also be used as a pit and fissure sealant or as a base and lining material

15g Powder and 6ml Liquid

Product	Code
A2	010/1601

Bonding

ConnectED

Self Etching Bonding Adhesive

- One step bond requiring no etchant or primer giving a secure bond within a 30 second application time. This 7th generation bond contains dual adhesive monomers which bond with equal strength
- The material is more stable than traditional phosphoric acid and offers an enhanced bond strength. Low film thickness ensures better adaptation of the composite restoration to the tooth surface. Excellent biocompatibility and HEMA free

Product	Code
Single Pack (6ml)	010/0122
Triple Pack (3 x 6ml bottles)	010/0121

Connect+

- Easy to use, solvent free, 5th generation bond. No mixing required. Creates strong chemical and mechanical bonds to naturally moist enamel and dentine
- Easily controllable, viscous liquid that offers an excellent, high bond strength to ensure durable, long lasting restorations

PerfectaLINE

Radiopaque Calcium Hydroxide Liner

- For capping pulp or providing a protective layer under filling materials and cements
- Self-setting to rigid, solid liner that does not inhibit the polymerisation of acrylic and composite restorations

Product	Code
13g Base, 11g Catalyst & Mixing Pad	010/0025

H2O Cem

Anhydrous Glass Ionomer Luting Cement

- Minimal cavity preparation required
- Superb translucency for optimum aesthetics

Product	Code
30g Powder	010/1550

Zinc Oxide Eugenol

- A radiopaque cement featuring a reinforced polymer incorporated into the powder
- Suitable as a lining material or as a temporary restorative

BridgelT

Temporary Crown & Bridge Material

- A self-curing material offering excellent aesthetic result combined with optimal mechanical properties making it ideal for provisional restorations
- The formulation ensures low heat generation during the intra oral setting protecting against damaging the pulp
- High flexural strength allows for easy placement and the compressive strength provides exceptional strength and resistance of the final restoration against masticatory forces

1:1 Ratio Cartridge System 75g and 6 Mixing Tips

Shade	Code

RetractPLUS

Gingival Retraction Paste

- Haemostatic blue-green acidic paste contains aluminium chloride which is an effective astringent ensuring easy temporary displacement of the gingival margin
- Fast acting to ensure a clean and dry sulcus with precise bent tips to ensure precise and accurate application
- Used for impression taking, cementation or cavity preparation
- Can be used as an alternative or in conjunction with a retraction cord

Product	Code
2 x 2g Syringe & 12 Application Tips	010/1024

Articulation

Articulating Paper & Forceps

- A super sensitive articulating paper for marking every point of articulation
- The paper is smooth, soft and non-sticking providing accurate articulations

SealEDPLUS

Pit & Fissure Sealant

- A light cure radiopaque fluoride releasing sealant designed to protect the fissures. SealEDPLUS is an opaque low viscosity and flowable ensuring high penetration into the recesses of the etched enamel surface
- The fluoride releases during polymerisation and for several days after application providing maximum protection against caries
- Fluoride release of 2.52ppm after 24 hours

Product	Code
2 x 2g Syringe & 5 Tips	010/1215

Prophylaxis Paste

ProphyPLUS

Single Dose, Splatter Free

- Easy to rinse blend of polishing and cleaning agents containing Sodium Fluoride
- Medium Grit (Green) ideal for use before Composite Bonding, Sealants and placement of Orthodontic brackets
- Coarse Grit (Red) recommended for extra heavy staining such as tobacco and plaque deposits
- Tub contains 200 single dose pots

EndoPLUS Alternate Files

An easy to use, single file system for efficient and effective shaping of the root canal

- Manufactured from premium quality NiTi alloy material, EndoPLUS Alternate Reciprocating files benefit from advanced gold heat treatment for enhanced file flexibility
- High levels of file strength reduce cyclical fatigue compared to other NiTi file systems, resulting in longer time to failure and ability to reach the full working length with reduced risk of file breakage
- Superb cutting efficiency means shaping time is drastically reduced
- Available in 21mm, 25mm and 31mm lengths
- Non sterile
- Sold individually in packs of 4 or as an assorted pack of all taper sizes

RootPLUS

Root Canal Sealant

- Two paste zinc oxide eugenol cement for permanent obturation of the root canal
- Space with the aid of obturation points
- The cement has excellent flow characteristics, is radiopaque and has a 6µm film thickness
- The pastes mix easily giving a smooth easy to use consistency

Product	Code
8g Base, 3.5g Catalyst & Mixing Pad	004/0200

EndoPLUS Alternate Path Files

Enable for easier, safer and faster pre-shaping of the root canal

- They are optimised for use with EndoPLUS Alternate files
- Sold in a blister pack of 4 files, available in 21mm, 25mm and 31mm lengths
- Non sterile

Protect+ Bio Foam Hand Sanitiser

A naturally derived, alcohol and Quat free foaming hand sanitiser. Highly efficacious, environmentally friendly and kind to skin

- Manufactured using renewable and sustainable technology, the plant based ingredients are bio-renewable
- Fragrance free making it ideal for all health care and food handling environments
- Formulated with an emollient and added Aloe Vera, making the foam gentle on skin and leaving hands hydrated, in contrast to alcohol-based hand gels, which strip the skin of moisture causing dryness and cracking following prolonged use
- Renewable and sustainable manufacturing technology
- Plant derived and carbon neutral
- 100% readily biodegradable, never tested on animals
- Post-consumer recycled bottles
- 100% UK manufacture and supply chain
- Technology has no aquatic toxicity
