TUNGSTEN CARBIDE

Highly compressed, fine-grit tungsten carbide instruments for every indication

- › Precise and easy-cutting blades
- › Smooth, vibration-free running
- › Function-suited geometry
- › Long lifespan
- › Maximum hardness with high elasticity
- › High cutting performance

Our high manufacturing precision guarantees efficiently-cutting blades.

Formed from highly compressed, fine-grain tungsten carbide, JOTA instruments' practical dimensioning and rotational precision is convincing.

Our high manufacturing precision guarantees efficiently-cutting blades. The sturdy and functional construction guarantees maximum hardness with sufficient elasticity. The long lifetime speaks for high quality. The large assortment guarantees an ideal choice of shape. Smooth vibration-free rotation allows precise application of the instru-

ments which are gentle on the handpiece.

Many years of practical experience

JOTA tungsten carbide rotating instruments have been tried and tested for decades. Practitioners are enthusiastic about their quality and durability.
